Subject: Transmittal of the TMPO Adopted 2007 Federal Transportation Improvement  
Program Administrative Amendment Number One for the Lake Tahoe Region

Presented for your review and action is the Tahoe Metropolitan Transportation Organization's (TMPO) 2007 Federal Transportation Improvement Program (FTIP) Administrative Amendment Number One for the Lake Tahoe Basin. We are asking for your approval of the FTIP administrative amendment for inclusion in the Nevada Statewide Transportation Improvement Program (STIP), and the California Federal Statewide Transportation Improvement Program (FSTIP).

Administrative Amendment

The TMPO is administratively amending the SHOPP projects below to reflect a change in the fund type from SHOPP to SHOPP AC (advance construction) as requested by the California Department of Transportation (Caltrans). Funding levels, programming years and project scopes will remain unchanged.

SHOPP AC Projects

EA 4C250, EA 1E140, EA 1C111, EA 1A844, EA 3453B, EA 3C390, EA 3C380,  
EA 1A730, EA 1A841, EA 2E5001, EA 290900, EA 2A940K, EA 2A920K,  
EA 2A9210, EA 1C9711, EA 1C9721

The TMPO is also administratively amending the projects below to reflect changes in the EA and PPNO references to correct data entry errors as requested by the California Department of Transportation:

EA 1A841 is not a Caltrans project. The EA and PPNO numbers have been removed.  
EA 3453B has been changed to EA 1A842 and the PPNO has been changed to PPNO 3453B.

Public Involvement

The TMPO is not required to publicly notice a thirty day review period as administrative amendments do not require a review period. This is consistent with the adopted TMPO Public Input and Project Selection Procedures.

Conformity and Interagency Consultation

Pursuant to the requirements of the Transportation Equity Act for the 21<sup>st</sup> Century (TEA-21), the TMPO has made a conformity determination and has found that the projects and programs contained in the adopted 2007 FTIP for the Lake Tahoe Region are exempt pursuant to 40 CFR Part 93.126 and/or 93.127, and that the projects in the 2007 FTIP do not interfere with the implementation of approved State Implementation Plans Transportation Control Measures for either Nevada or California. Additionally, the Interagency Consultation Procedures adopted by the TMPO pursuant to 40 CFR 93.105 were followed, except that the Conformity Task Force was not convened as there was not a new conformity analysis prepared given the exempt nature of the projects.

Fiscal Constraint

The 2007 FTIP for the Lake Tahoe Region is fiscally constrained consistent with 23 CFR 450 (93.108). The fiscal constraint spreadsheet is attached for your review.

If you have any questions or need additional information, please contact myself or Marc Reynolds at (775) 588-4547.

Respectfully,

Nick Haven  
Transportation Programs Manager

**PUBLIC INPUT AND PROJECT  
SELECTION PROCEDURES**

## **PUBLIC INPUT AND PROJECT SELECTION PROCEDURES**

### Public Participation

Section 135(f) of Title 23, as amended by ISTEA, requires opportunity for public comment on the proposed improvement program. The 2007 FTIP has been developed under TMPO policies for community input and interagency consultation procedures adopted in 1998. Projects included in this FTIP are projects proposed for funding under Title 23 (highway) or under Title 49 (transit), or projects for which approval by the FHWA or the FTA is required, or non-federally funded projects with regional transportation impacts. The TMPO, in coordination with local, regional, or federal agencies, selected all projects in this FTIP for funding with federal and/or other funds. The Tahoe Transportation District (TTD) and the Tahoe Transportation Commission (TTC), are each required to review this document and provided input into its development, prior to submittal to the TMPO. Each of entity will provide an opportunity for public comment on the FTIP.

The FTIP was presented to the Tahoe Transportation Commission on June 14, 2006 and an opportunity for public comment was provided. Both of these agendas were distributed according to TMPO procedures. A Public Hearing Notice was posted per TMPO requirements, and a Public Hearing was held at the June 14, 2006 Tahoe Transportation Commission Board meeting. Besides distribution to members of these Boards and Committee, copies were distributed to TMPO distribution list, including members of the social services advisory council.

### Priorities

Project priorities in this FTIP are by fiscal year. All projects in the earliest fiscal year are priority one, projects in the second fiscal year are priority two, and projects in the third fiscal year are priority three. If a second or third year project is proposed earlier, federal regulations require that a project selection procedure be developed and used to advance projects that are ready to proceed earlier than anticipated.

### FTIP Selection Procedures

This section identifies the selection procedures used to administratively amend the FTIP, and amendment scenarios that clarify the California and Nevada programming interactions.

#### *Advancement*

- Proponents will notify TMPO staff in writing of the need to advance a project identified in years two or three.
- TMPO staff shall determine if sufficient financial capacity exists in the FTIP to advance the project into an earlier fiscal year. If sufficient financial capacity does not exist, then staff shall give the proponent the opportunity to identify a project that can be delayed to allow the project to advance. If this is not possible, staff shall so advise the project proponent. Staff shall consider if the project to be advanced would:
  - Interfere with the timely implementation of transportation control measures in the State Implementation Plan for Air Quality. Projects in these circumstances would not be allowed.
  - Require air quality analysis and a new finding of air quality conformity. If so, a formal FTIP amendment would be required. If the project is exempt, this does not apply.

- Staff shall administratively amend the FTIP to advance projects that meet financial constraint and air quality requirements.

#### *Addition*

- Proponents shall notify TMPO staff in writing of the need to include a new project in the FTIP. This notification shall include the project's description, estimated cost, proposed funding sources and availability, anticipated date for construction bid advertisement, and estimated project completion.
- Staff shall determine whether the proposed additional project would:
  - Interfere with the timely implementation of transportation control measures in the State Implementation Plan for Air Quality. Projects in these circumstances would not be allowed.
  - Require air quality analysis and a new finding of air quality conformity. If so, a formal FTIP amendment would be required. If the project is exempt, this does not apply.

#### *Adjustment*

- Proponent shall notify TMPO staff in writing of the need to amend a project in the FTIP. This notification shall include the changes needed in the project's description, estimated cost, proposed funding sources and availability, anticipated date for construction bid advertisement, and estimated project completion.
- Staff shall determine whether the proposed additional project would:
  - Interfere with the timely implementation of transportation control measures in the State Implementation Plan for Air Quality. Projects in these circumstances would not be allowed.
  - Require air quality analysis and a new finding of air quality conformity. If so, a formal FTIP amendment would be required. If the project is exempt, this does not apply.
- Staff shall administratively amend the FTIP to make project changes that meet financial and air quality conformity requirements to account for changes to capital and operating expenses of 20 percent or less but not to exceed \$2 million dollars, or to substitute one source of funding for another. Projects whose costs increase by more than 20 percent will require a formal FTIP amendment.
